Blue door slides open to reveal a redacted logo.

Logo holds then the camera pans down...

to reveal government building.

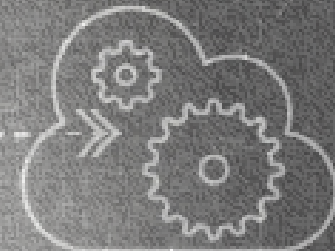

Cut to redacted copy and our two agents.

VO: Looking to provide cloud services...

Looking to provide
cloud services to
the Government?

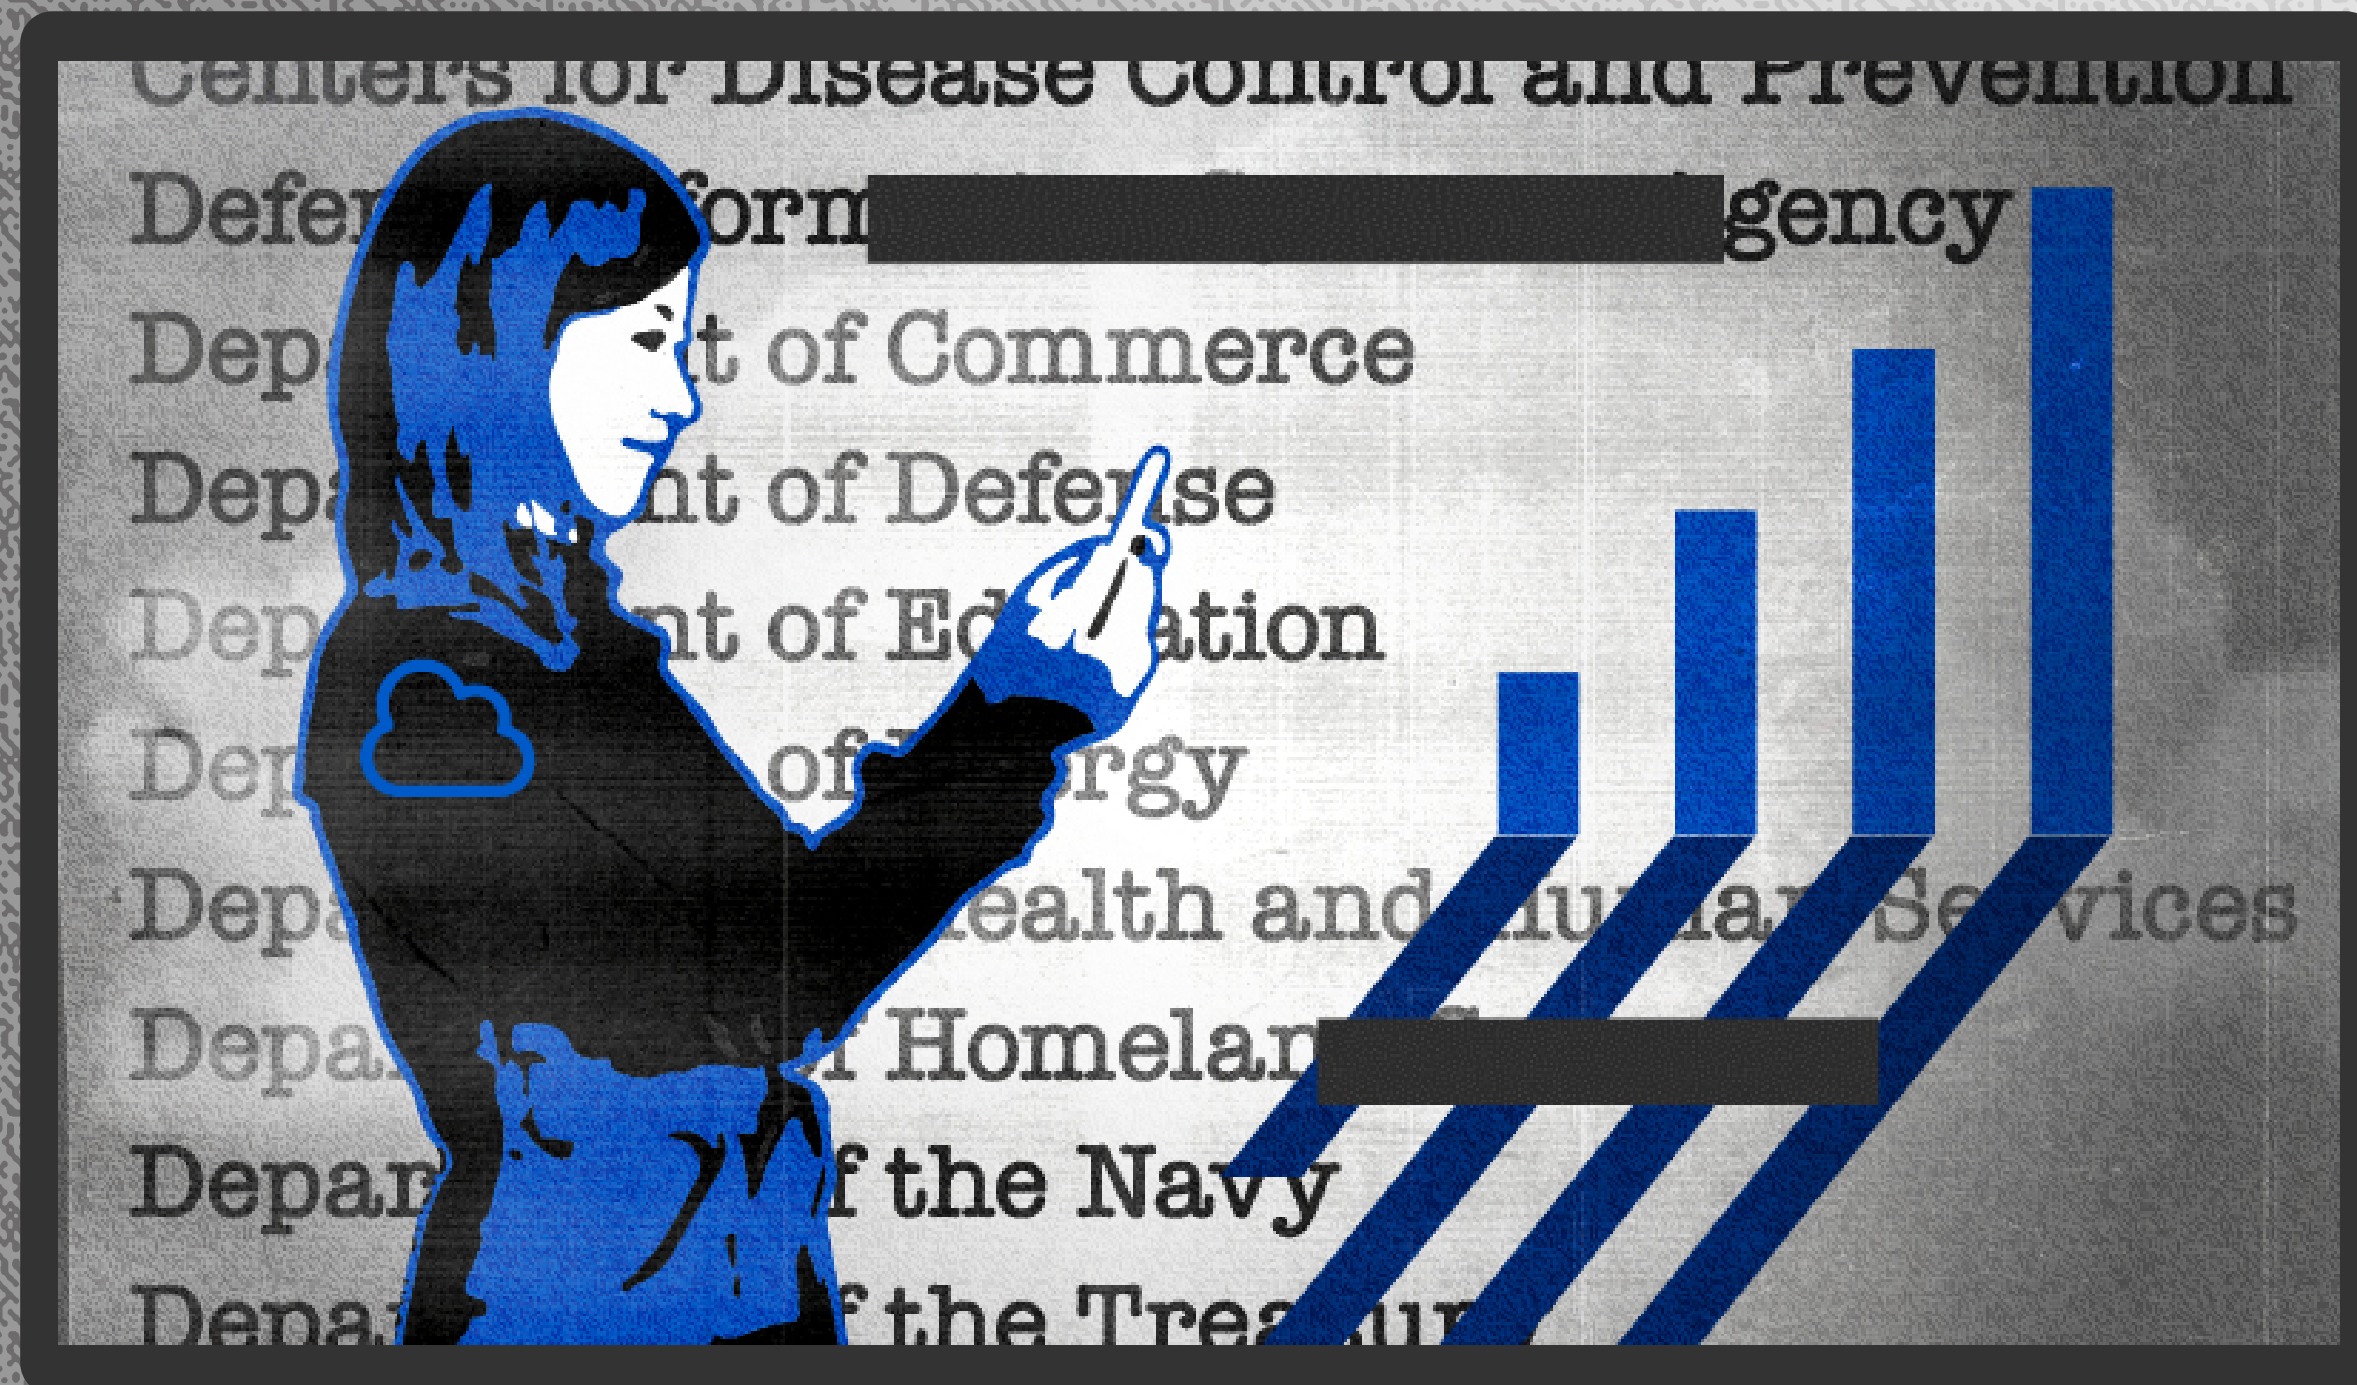

Centers for Disease Control
Defense Information
Department of Commerce
Department of Defense

White lines and icons animate. Blue chart begins to wipe on.

VO: Looking to provide cloud services to the Government?

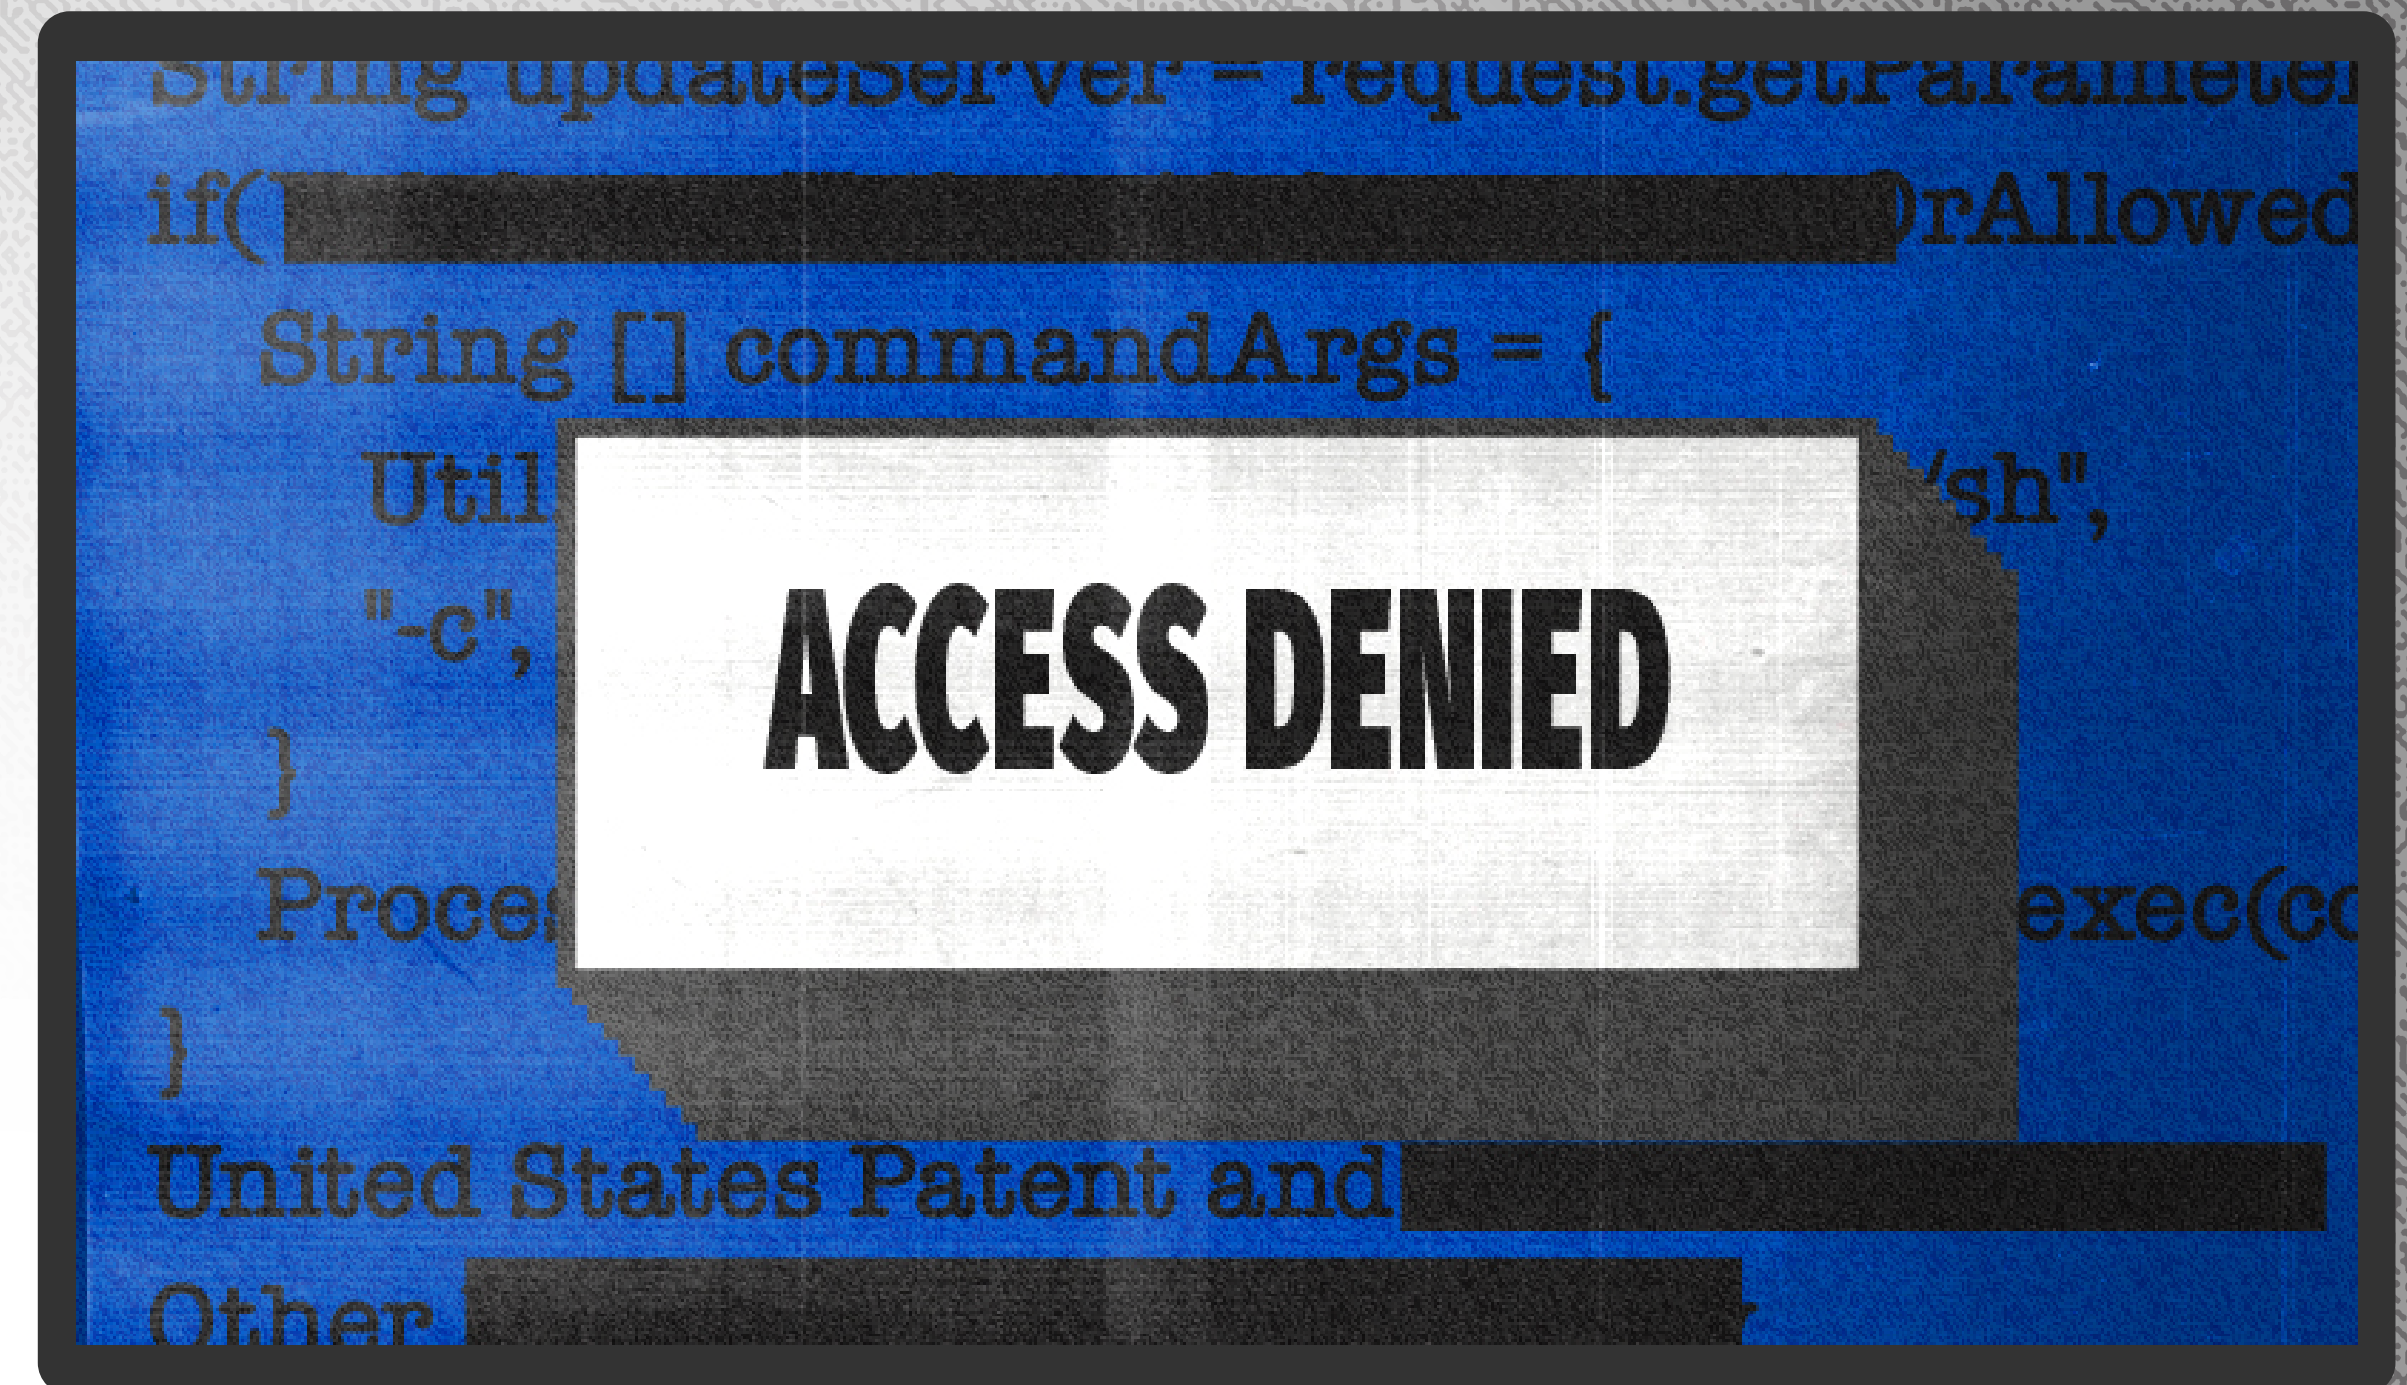

Camera pans to chart and redacted text appears...

VO: With more and more agencies looking to adopt cutting-edge technologies, local and national government agencies offer an exciting and lucrative opportunity for your business.

Agent appears scrolling through all the government agencies.

VO: With more and more agencies looking to adopt cutting-edge technologies, local and national government agencies offer an exciting and lucrative opportunity for your business.

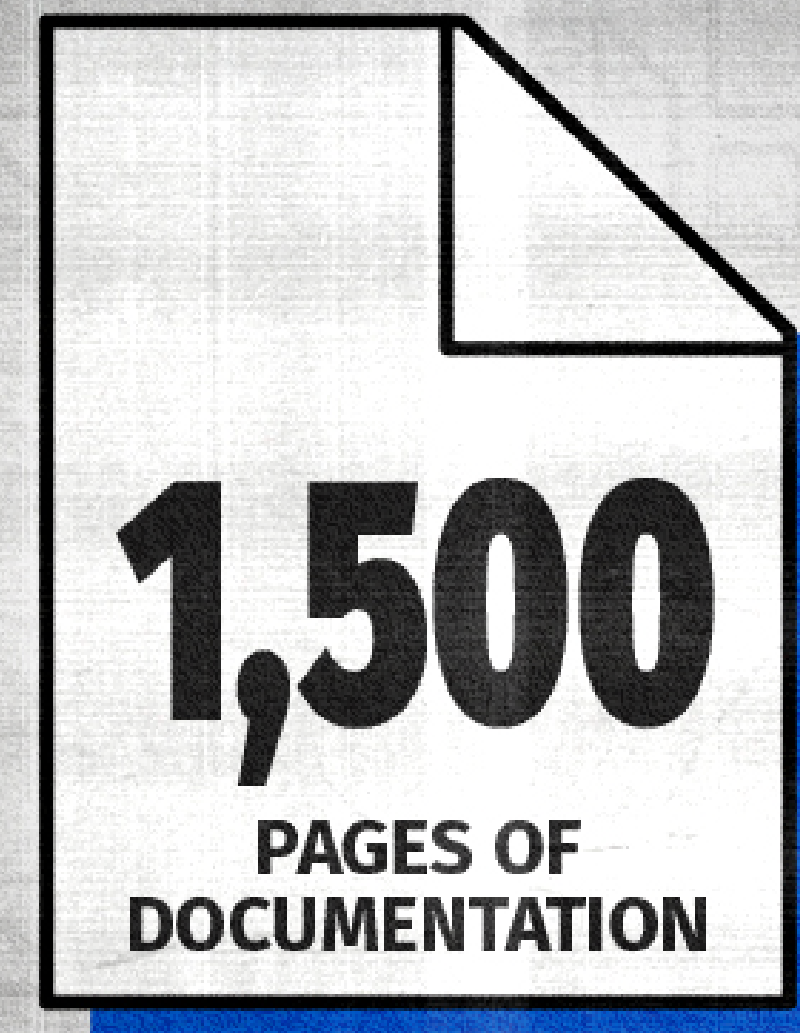

Blue Alert warning flashes.

VO: But providing services for government agencies requires adherence to strict compliance and security requirements.

Warning alert stat animates.

VO: You'll be dealing with 421 security controls...

Documentation stat animates.

VO: You'll be dealing with 421 security controls, up to 1,500 pages of documentation....

Time stat animates.

VO: You'll be dealing with 421 security controls, up to 1,500 pages of documentation, and, if you go the DIY route, a 12-18-month timeline.

Agent walking through all the government agencies.

VO: And you'll also have to navigate countless standards that only exist in this sphere...

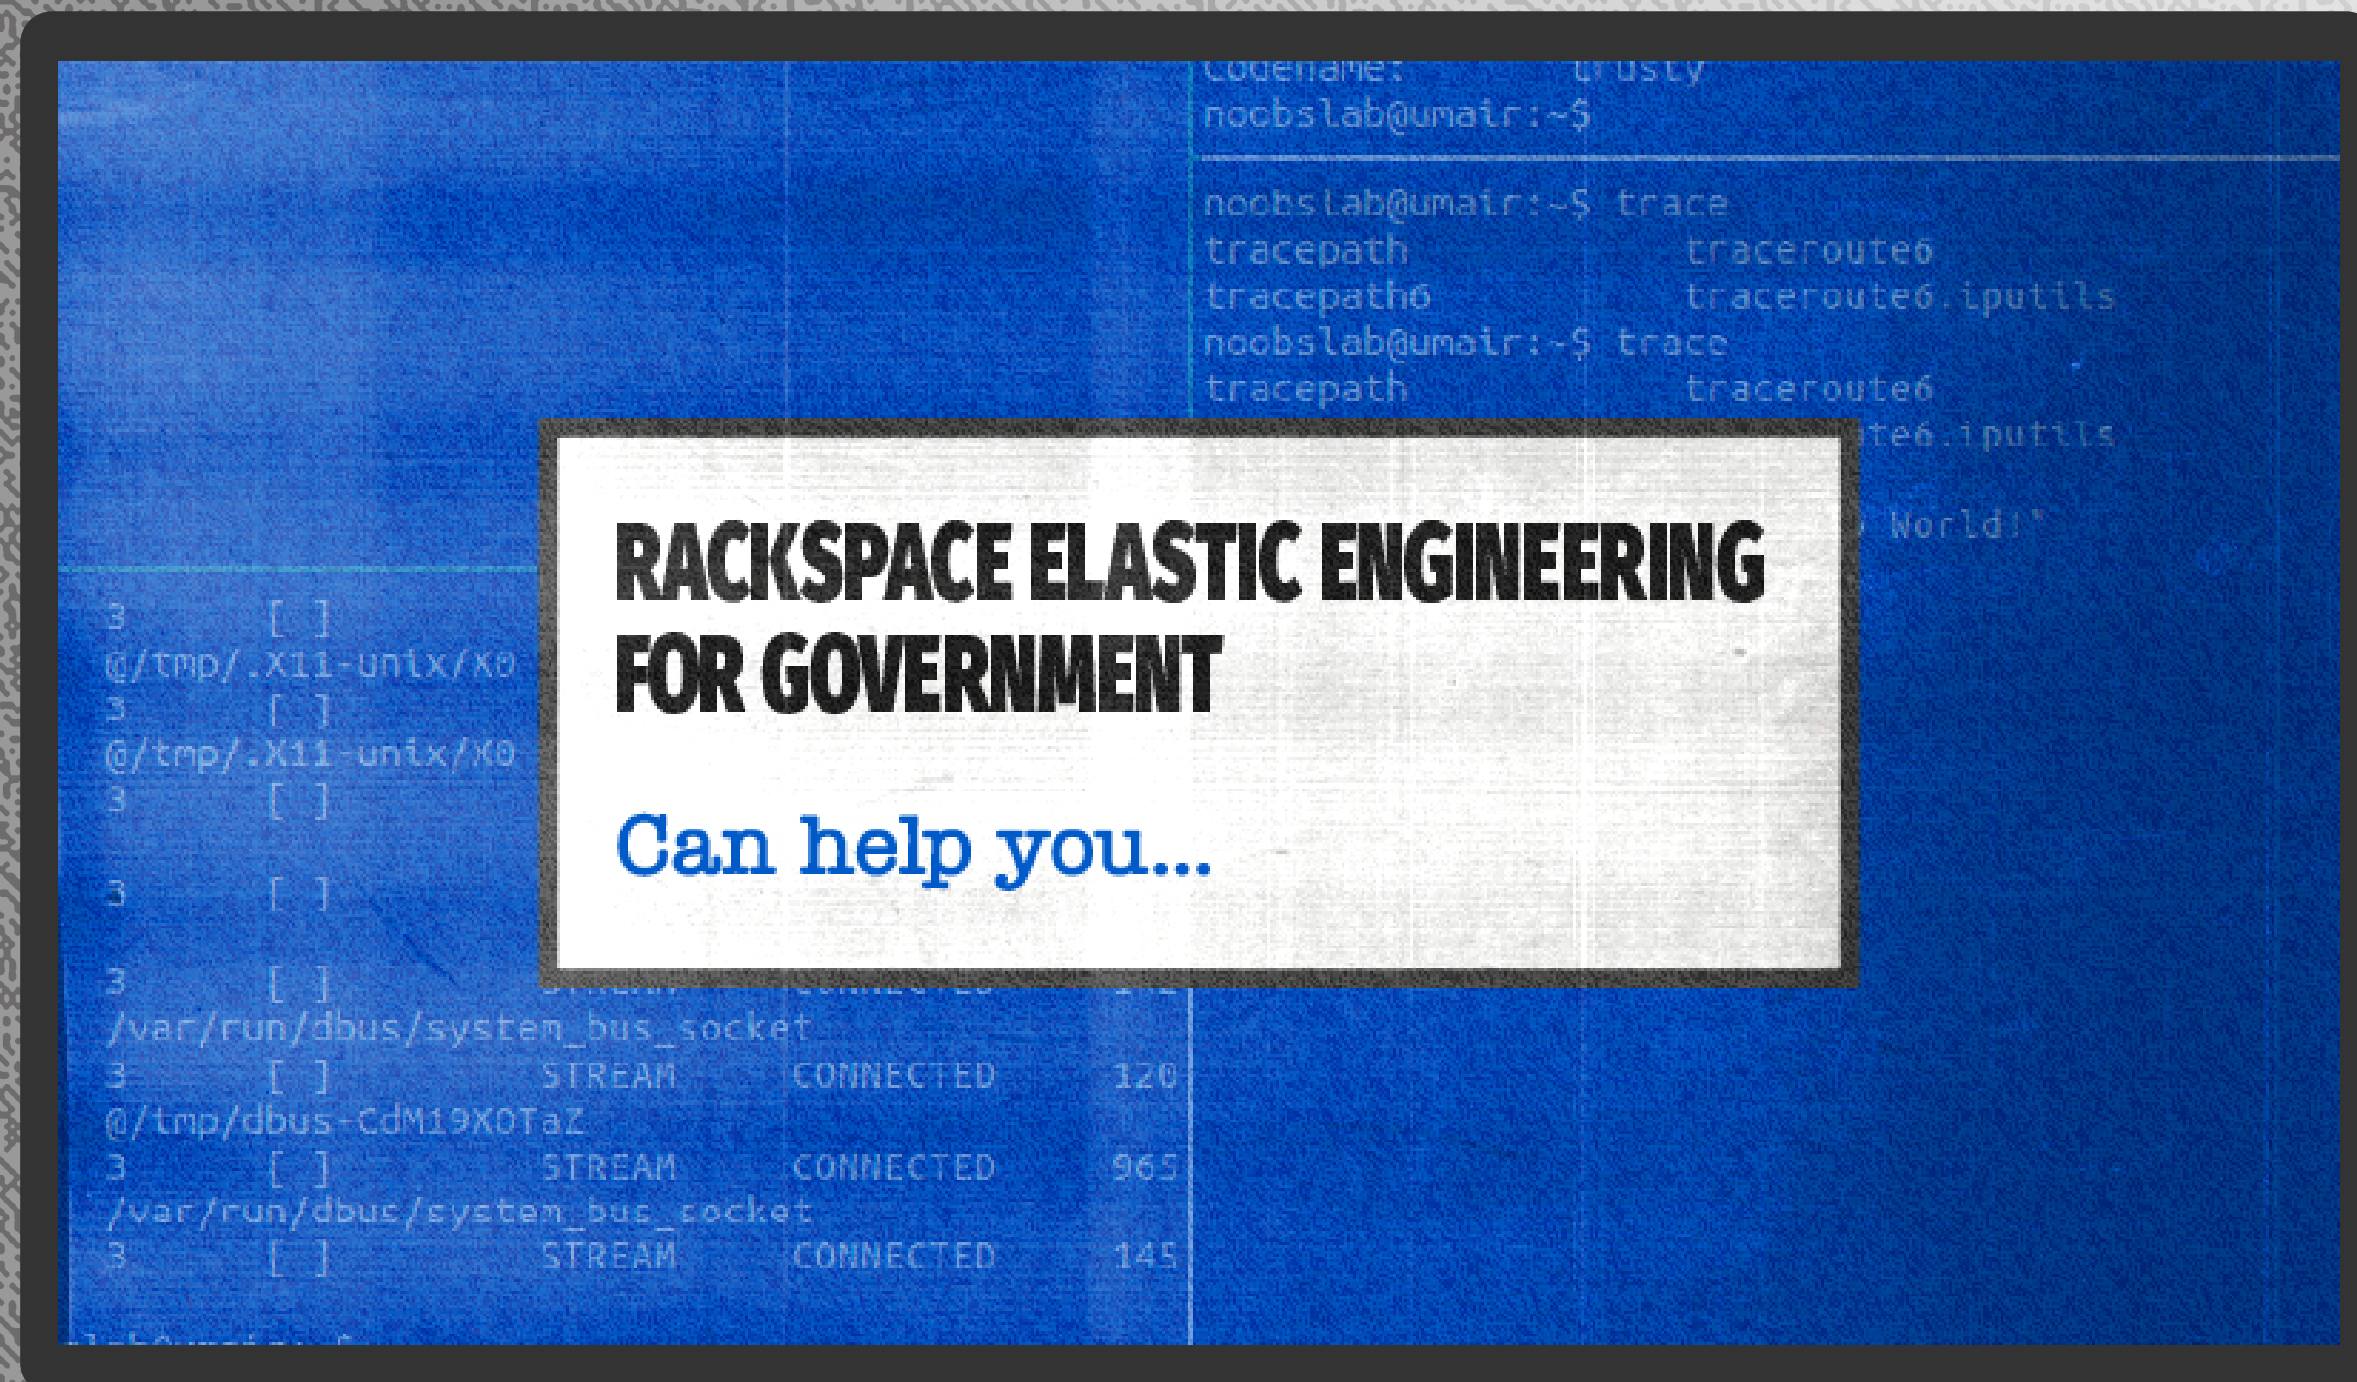

Cut to frustrated agent.

VO: It can be daunting to even get started, let alone arrive at this promised land.

Cut to agents sitting and a mobile phone going off.

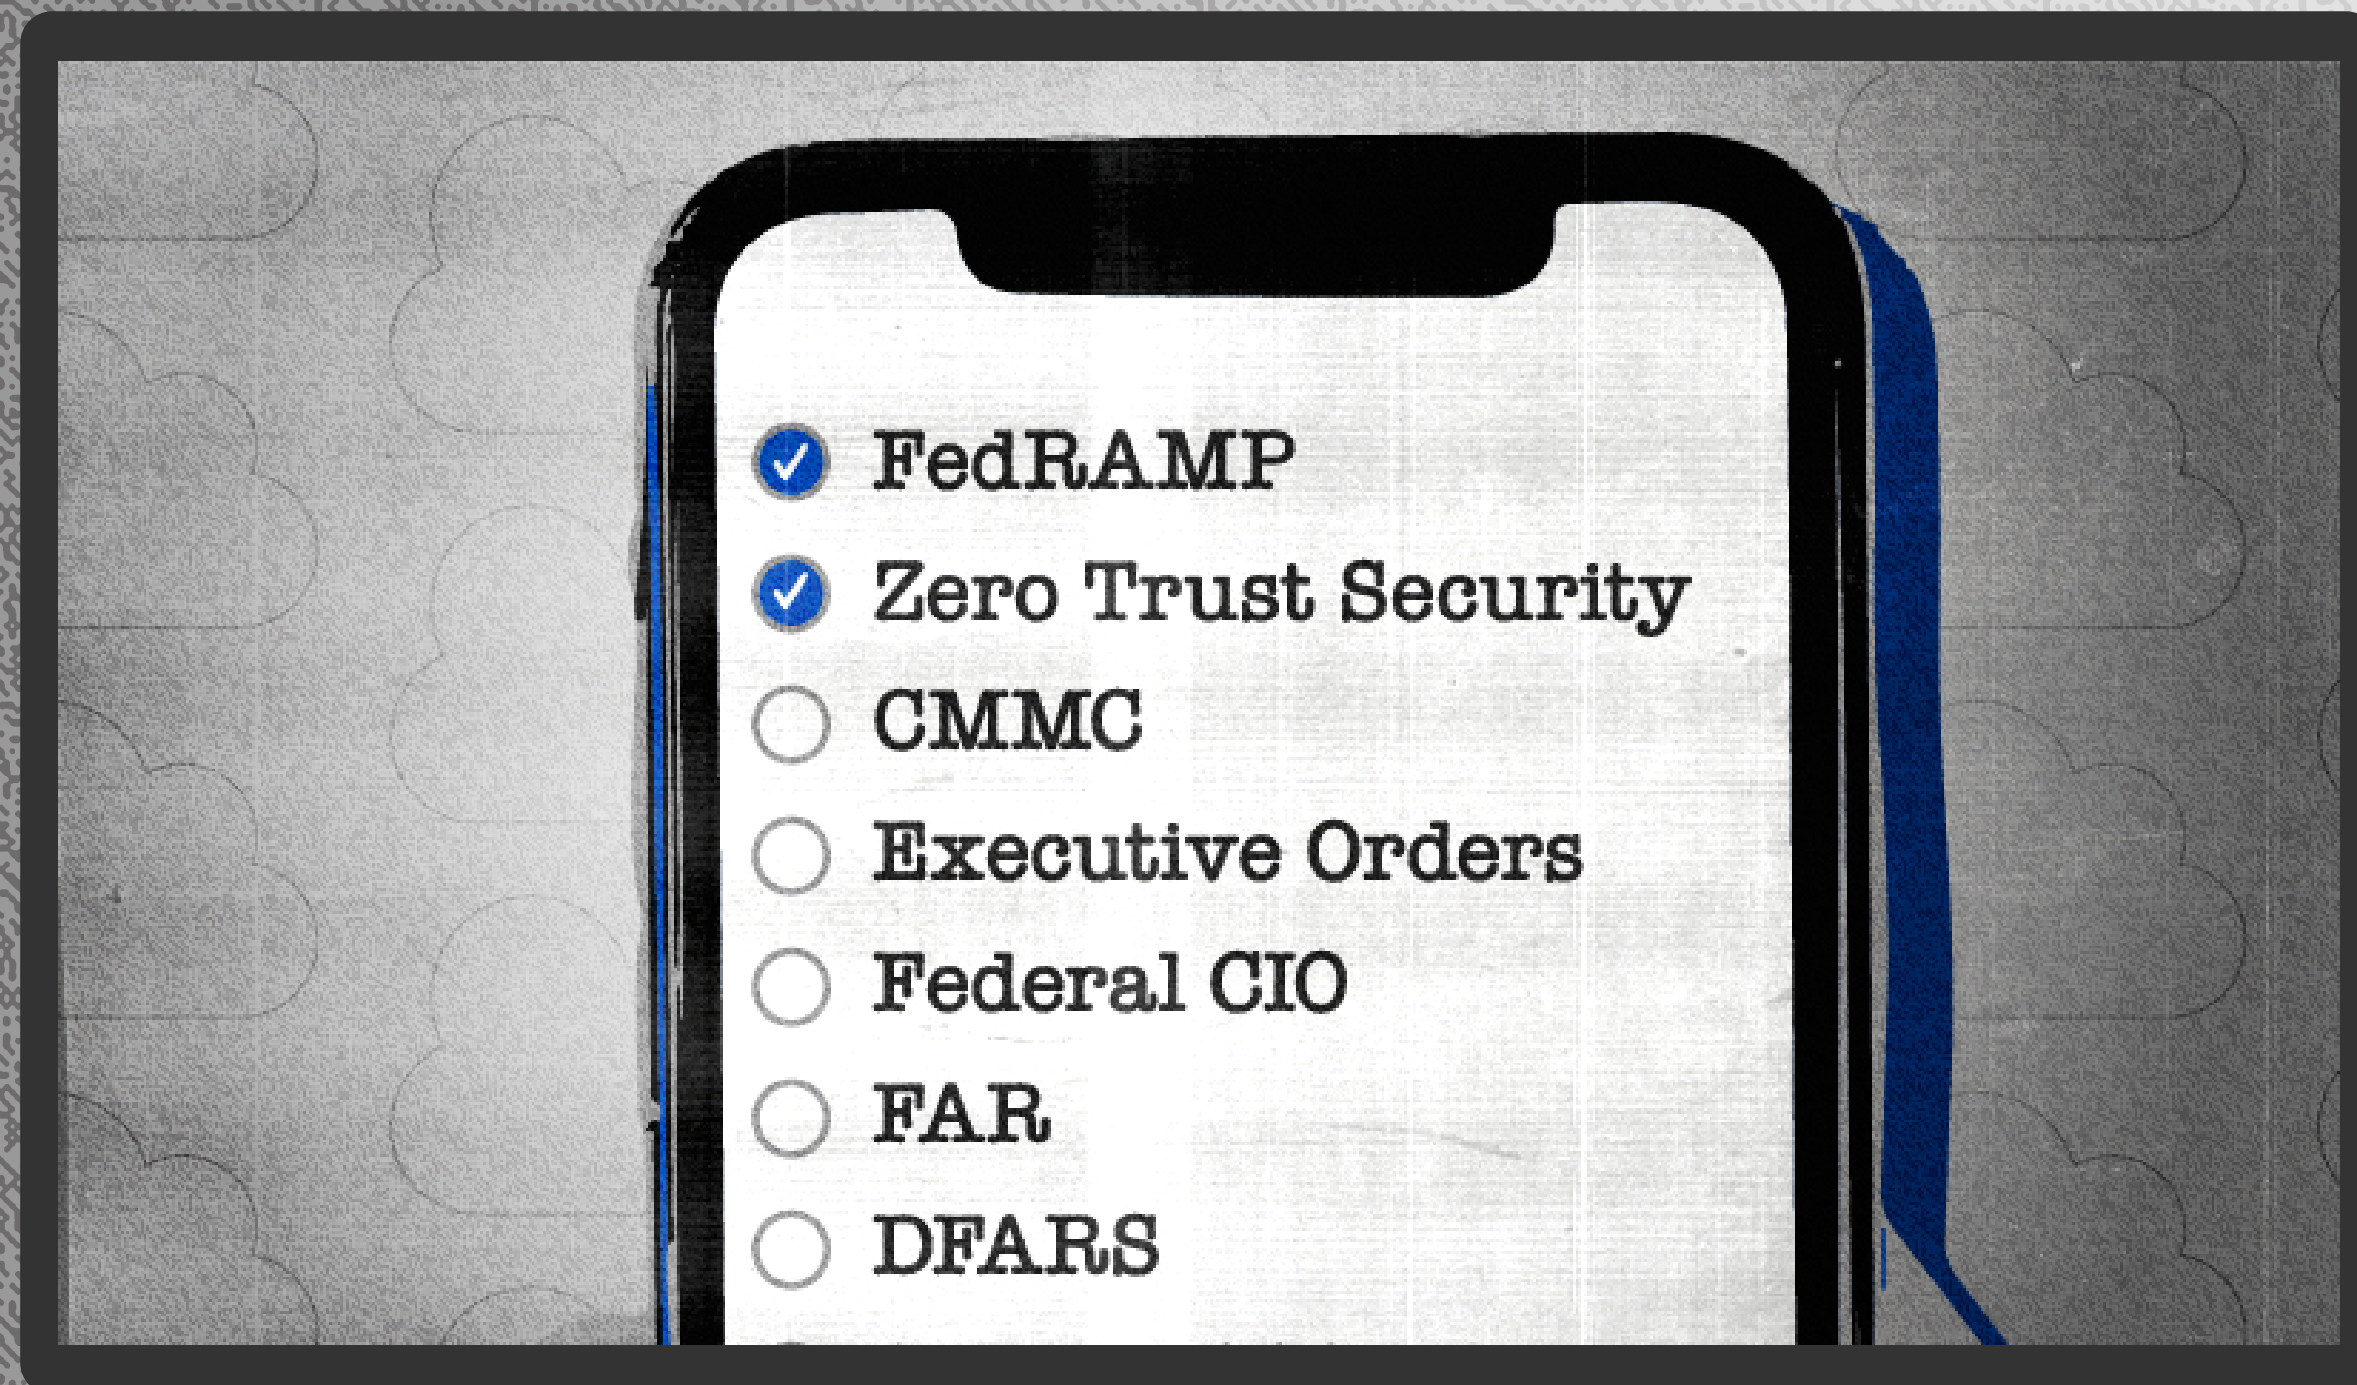

Cut to close up of mobile phone screen.

VO: Rackspace Elastic Engineering for Government can help you on this journey.

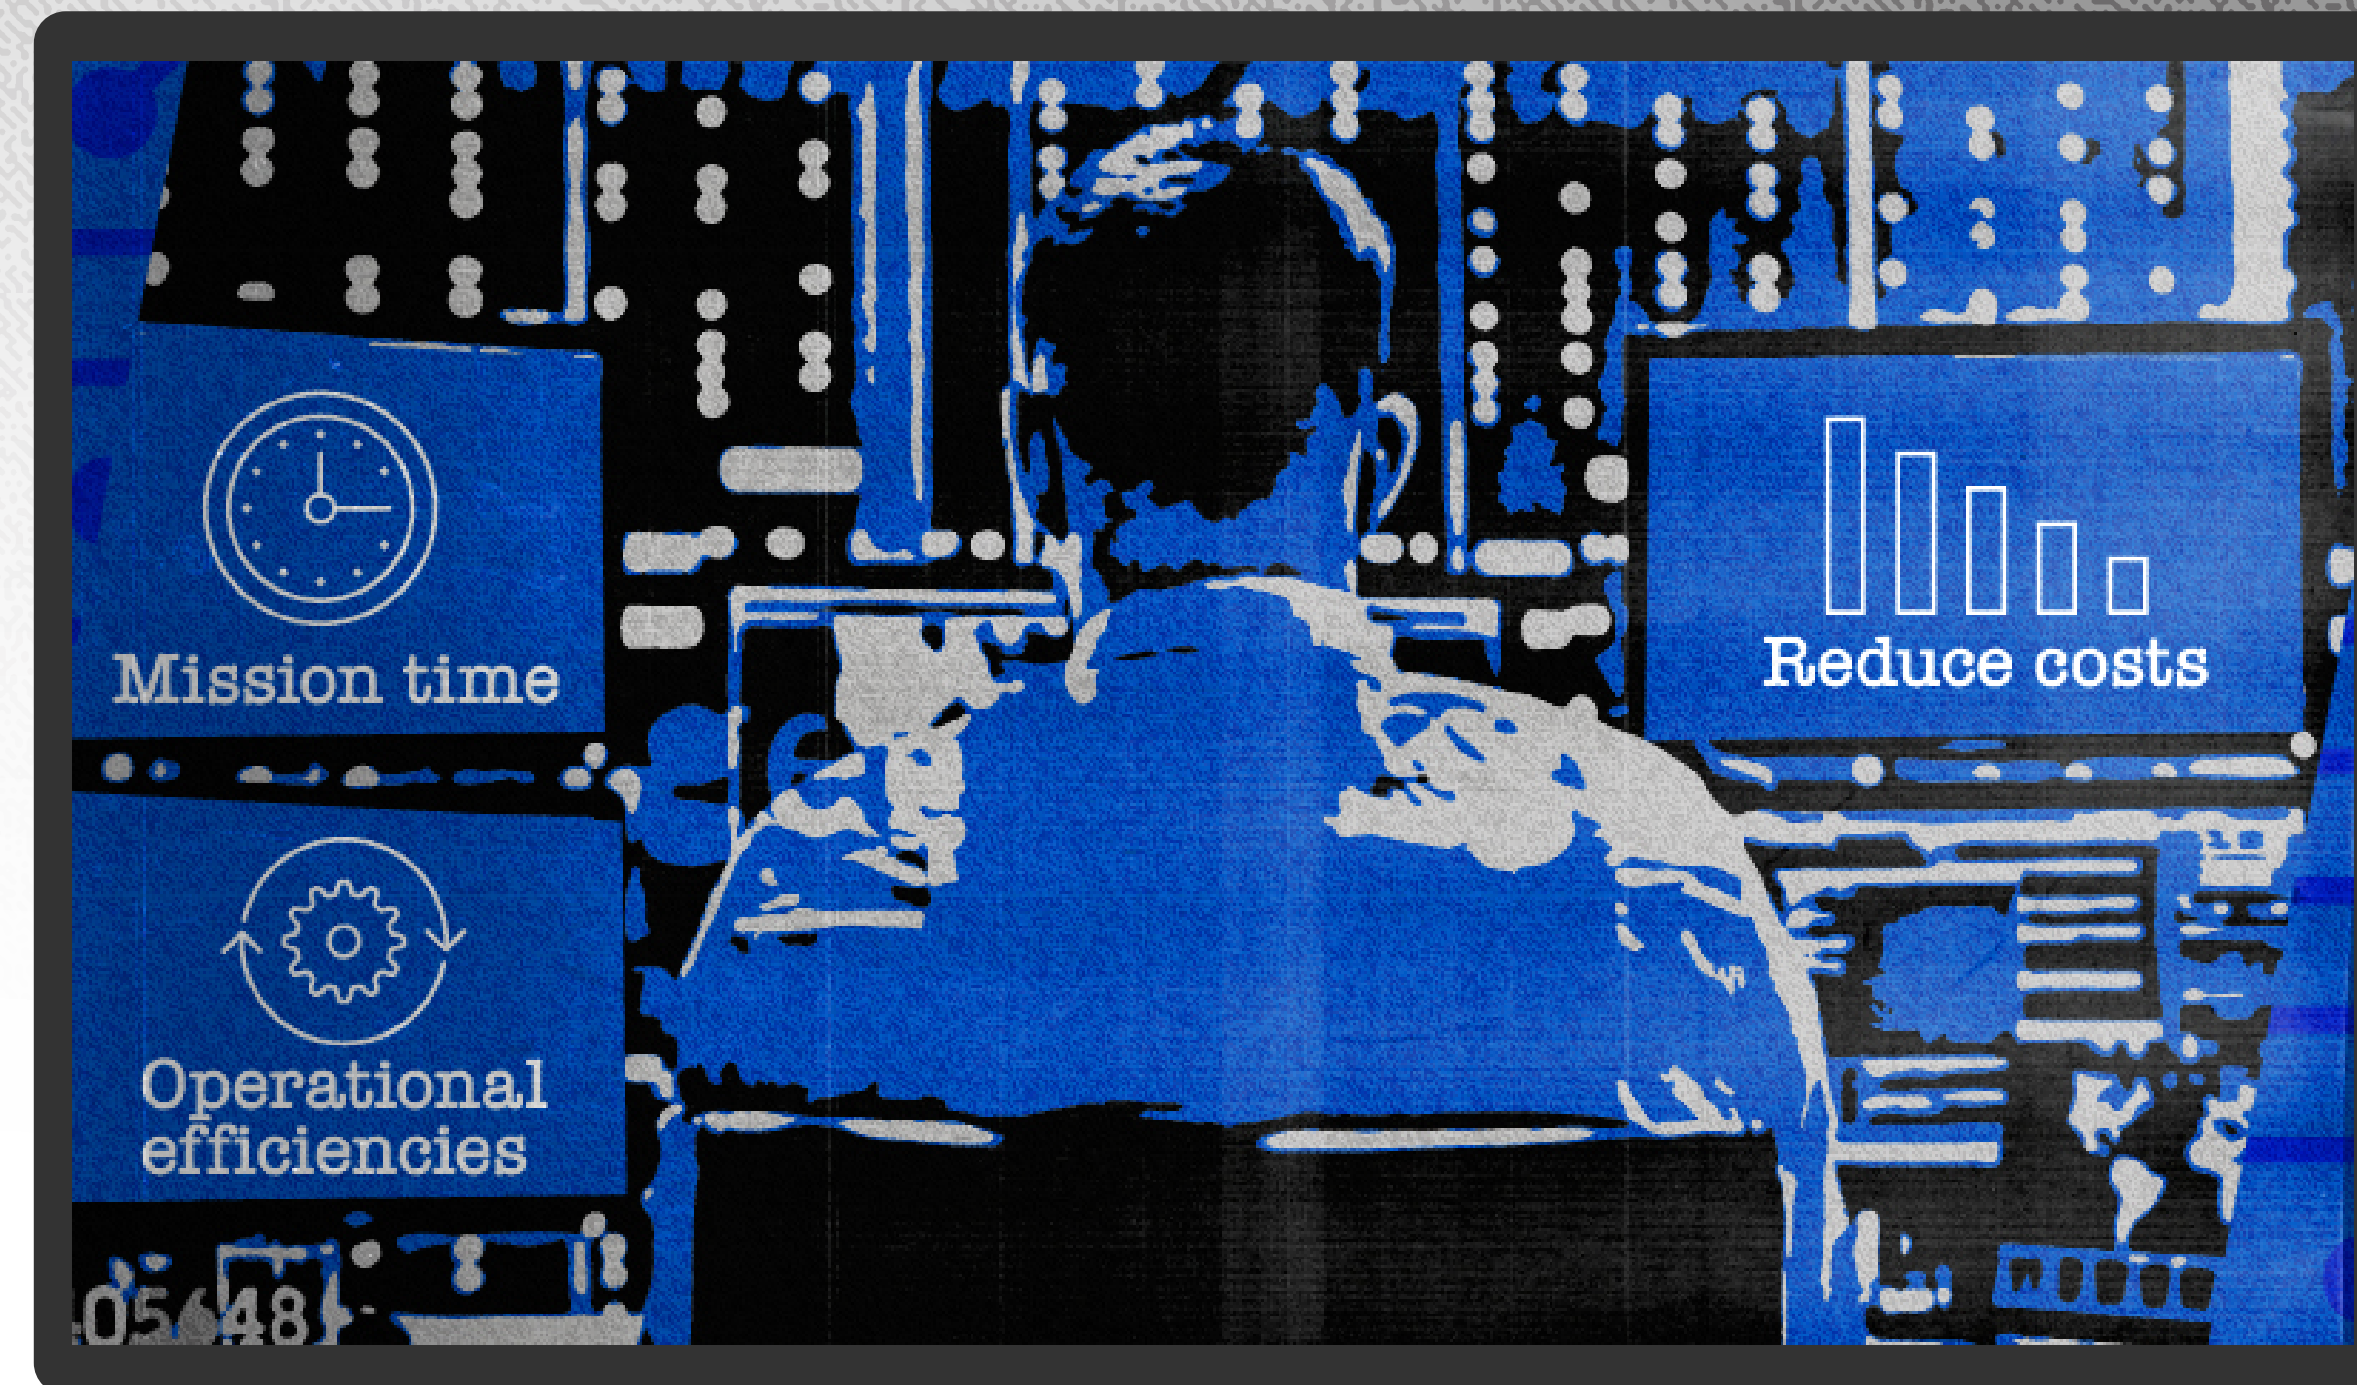

Camera pans out to hand with phone.

VO: Through on-demand access to help...

Scroll through all government agencies with check marks.

VO: Through on-demand access to help from every cloud discipline, we'll get you to FedRAMP authorization quickly without sacrificing functionality or innovation speed.

Cut to agent in mission control.

VO: Reduce time to mission, achieve operational efficiencies, and reduce costs along the way with Rackspace Elastic Engineering for Government.
